

Join our team

Qubist is a team of enthusiastic, driven, team players. We are looking for highly skilled graduates or undergraduates that match this set of qualities.

We are looking for candidates with excellent communication skills, an interest in learning and problem-solving, and who show initiative and leadership potential.

You will have the opportunity to work on a range of projects across a variety of sectors and service lines, with potential tasks including:

- developing tender proposals;
- data analytics and statistics;
- commercial activities and contract reviews;
- report writing and development.

We provide:

- Training and coaching opportunities to help you learn and develop the skills needed in consulting;
- Networking opportunities with others within the infrastructure sector;
- A range of social activities and ways to get to know the Qubist team and our clients.

How to apply

Please visit our careers page and follow the link to graduate or undergraduate applications.

 www.qubist.com.au/careers

- Download the application form
- Complete (and PDF) the application form
- Go to the application page and submit your resume and completed application form

Young Professionals
2024/25

Who we are

Qubist is a boutique advisory business that provides expertise to clients who develop, own and operate utility and infrastructure assets.

Qubist provides advisory services across the entire asset lifecycle.

We work with commercial, technical and collaboration challenges, providing strategic, practical and commercial solutions to our clients.

Young Professionals

Graduates:

- Qubist is looking for young professionals in their final year of university, who will graduate at the end of 2024 from an engineering or combined engineering degree.
- We are offering full time graduate positions.

Undergraduates:

- Qubist accepts penultimate (3rd or 4th) year students studying an engineering or combined engineering degree.
- We are offering 10-12 weeks of paid work experience.
