

Qubist Profile

Qubist Pty Ltd is an advisory business that provides expertise to clients with utility and infrastructure assets.

We help clients create greater value, new possibilities and superior outcomes for their assets and organisations.

Our clients include private and public sectors, government agencies, contractors and legal organisations.

Qubist

Qubist is a boutique advisory business that provides expertise to clients with utility and infrastructure assets. Qubist was founded in 2018 by a team of long-term ex-Advisian (formerly Evans & Peck) employees with extensive expertise in construction, engineering consulting and advisory services.

Qubist provides services and deep domain expertise across the entire business life cycle for complex assets from business cases, due diligence and feasibility study, procurement, program delivery and operations and maintenance.

Qubist understands the specific commercial, technical and collaboration challenges involved in the rail sector. We call on decades of hands-on project and business experience to provide informed advice to our clients and ensure strategic, practical, commercially oriented solutions.

To provide the greatest value for our clients, Qubist services cover the full suite of strategic advisory services in developing and operating assets and businesses, existing or envisaged.

Our Services Cover

- Contract commercial management/negotiation and contractual services
- Strategic PMO and project/program delivery management
- Environmental management, planning and approvals
- Business case development
- Technical and commercial due diligence and Independent Financiers Engineer or Certifier
- Risk assessment and management
- Cost engineering, cost assessment and management
- Project procurement strategy and transaction management
- Strategic asset management
- Operational excellence and advance analytics
- Claims, dispute resolution and expert reports

Sector Focus

Qubist understands the specific commercial, technical and collaboration challenges involved in the infrastructure and utilities sectors. We call on decades of project and business experience to provide informed advice to our clients and ensure strategic, practical, commercially oriented solutions. Our people focus on three primary sectors:

- Transport (roads and rail)
- Utilities (water, wastewater, telecommunications, and gas)
- Energy (transmission, distribution, generation and new energy)
- Urban development, social infrastructure
- Resources
