

Qubist Transport – Roads Sector Capability

Creating value at all stages of the project lifecycle.

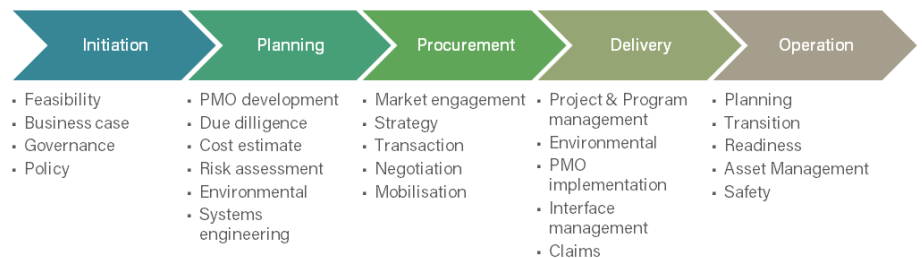

Qubist Pty Ltd is an advisory business that provides expertise to clients with utility and infrastructure assets. We help clients create greater value, new possibilities and superior outcomes for their assets and organisations.

Qubist provides solutions across the entire project lifecycle. We understand the specific challenges involved in running an organisation and call upon decades of industry experience to assist our clients – ensuring strategic, practical, and commercially orientated results.

Our private and public sector clients include government agencies, contractors, and legal organisations.

Our Road Services

Qubist offer services and expertise across the entire business lifecycle for road assets, which are becoming increasingly more complex. This includes surface works, motorways, tunnels, and their associated intelligent transport systems (ITS) for tolling, traffic management, and back-office systems. We offer services in both brownfield and greenfield environments. Our services are mapped against the project lifecycle below:

Qubist Approach

We pride ourselves on understanding our client's true needs. We develop and leverage tailored solutions, to ensure delivery of improved business and project outcomes.

Our team understand the specific commercial, environmental, technical, and collaborative challenges involved in the roads sector. We aid clients across project planning, development, construction, operations and maintenance phases.

Our team has built our expertise over decades working with contractors, asset owners and government agencies both locally and internationally. This has led us to become subject matter experts. We are a trusted partner to our clients, repeatedly delivering the quality people, expertise and knowledge promised.

Our personnel work alongside and embedded within government agencies such as TfNSW (including former Roads & Maritime Services) as well as major toll road operators and tier 1 contractors.

Relevant Project Experience

We support clients' portfolio, program, and project opportunities and challenges. Below is a selection of relevant experience our team has undertaken in the roads sector:

	Feasibility	Strategic Planning	Procurement Strategy & Transaction Management	Business Case Development	Commercial Support and Claims	Due Diligence	Risk Assessment, Mgt and Assurance	Asset Management	Maturity Assessment & Optimisation	Environmental, Planning & Approval	Operational Readiness	Handover	Operation and Maintenance	Best Practice Review
