

Qubist Transport – Rail Sector Capability

Creating value at all stages of the project lifecycle.

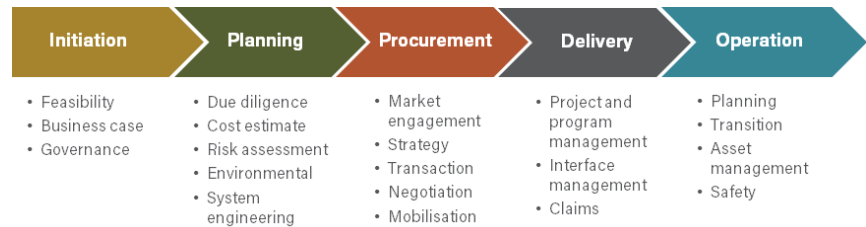

Qubist Pty Ltd is an advisory business that provides expertise to clients with infrastructure and utility assets. We help clients create greater value, new possibilities and superior outcomes for their assets and organisations.

Qubist provides solutions across the entire project lifecycle. We understand the specific challenges involved in running an organisation and call upon decades of industry experience to assist our clients – ensuring strategic, practical, and commercially orientated results.

Our clients include private and public sectors, Government agencies, contractors, and legal organisations.

Our Rail Services

We offer services and expertise across the entire business lifecycle for complex rail assets. This includes passenger (heavy and light-rail), freight, and pit-to-port operations. Our experience covers both regional and city rail infrastructure and rolling stock. Our team have extensive experience working with multi-agency and private sectors and engaging with a broad range of stakeholders.

Qubist Approach

We pride ourselves on understanding our client's true needs. We develop and leverage tailored solutions, to ensure delivery of improved business and project outcomes.

We understand the specific commercial, technical, and collaborative challenges involved in the rail sector.

Our aim is to protect our client. We are a trusted partner, repeatedly delivering the people, expertise and knowledge promised. Our team has built our expertise over decades working with contractors, asset owners and government agencies both locally and internationally.

Our approach is to provide depth of experience, knowledge, and where required, rigorous analysis to the problems we solve. We can provide a system engineering approach and advice, depending on the client's needs to delivering complex rail systems. We can provide succinct reports as output, with supporting evidence.
